TesCom is accredited to ISO 17025 and ANSI Z540.1 All calibrations meet ISO 9001 and ISO 10012 requirements with professionally trained and tested Metrologists.

Level 1 Calibration: Calibration will be performed in accordance to ISO/IEC 17025.

Level 2 Calibration: Calibration will be performed in accordance with ANSI Z540.1 and includes measurement data.

Level 3 Calibration: Calibration will be performed in accordance with ANSI Z540.1, but does not include measurement data unless found out of tolerance. 99% of our customers choose this level.

Level 4 Verification: Functional verification check.

Calibration Intervals: Example 6, 12, or 24 months
